------------------------------	----------------------------	---

Combining the technology in the DTEN ME with Zoom’s enterprise-quality software delivers the ideal solution for the classroom. Simply login with your Zoom user account and have instant control of your classroom without any additional licenses. This solution integrates Zoom Meetings, phone calling, whiteboarding and annotation in a 27” multi touch display built for the desktop. It is designed to keep your work space clutter free and organized. At 27” it is ideally sized to fit neatly on your desk. It provides a display size made to see and hear meeting participants and view content clearly. It is sleek, streamlined, ultra thin and lightweight. The device can be used as a second monitor. The multi-touch hyper responsive display keeps up with the speed of your ideas as multiple participants can write and annotate at the same time. The drawing tools take your hand drawings and auto-corrects your shapes for clarity as you write on the whiteboard. Use night mode as needed and save your whiteboard slides to share and send after the meeting.
