Lumio™

Light up learning

Lumio offers **more ways** to effortlessly make learning fun and engaging on student devices.

From PDFs to Google Slides, PowerPoint to SMART Notebook, Lumio transforms existing curriculum resources into **dynamic, engaging learning experiences** on any device. Educators can help students explore interactive experiences and gather insights into learning with activities, games, group workspaces, formative assessments, and more, all from a single place.

Save costs and simplify your tech approach with a tool that lets teachers do it all — plan, evaluate and deliver fun, engaging lessons — in **one powerful web-based learning platform.**

Why schools and districts love Lumio

Amplifies best teaching practices

Increased impact from student devices

Research-based design and Digital Promise certified

Efficient workflows and ecosystem integrations

Simple deployment with exceptional privacy and security

Specifically designed to improve student outcomes – it's not just fun, it works!
